

Felgenreiniger CL

Rim & washing bay cleaner, acidic

Powerful, phosphoric and hydrochloric acid based cleaner for all acid-resistant materials such as rims, commercial/construction vehicles, washing bay tiles, machinery, etc. Burned in brake dusts, rust stains, limescale, environmental dirt and other inorganic dirt are removed very quickly and thoroughly. The optimal combination of cleaning performance and material compatibility. Quick-separating in accordance with ÖNORM 5106.

page 1 of 1

Areas of use

Acid-resistant materials such as steel and painted aluminium rims, washing bay tiles, commercial/construction vehicles, machinery, etc.

Recommendations for use

Depending on the dirt accumulation, for rim cleaning spray 1:2 to 1:10 and for washing bay cleaning spray 1:8 to 1:20 over the whole of the pre-wetted areas (avoid running). Allow to react for a short time, if required finish off with a brush or sponge and rinse off thoroughly with a high-pressure appliance. Where larger amounts are used (washing bay cleaning) the service water's pH number range should be increased to a range of 7 to 8 with KocPlus (Kp25 or Kp50).
